

# Creature hide-and-seeK

Small animals and insects hide away to keep safe from bigger animals and birds. They hide under stones and logs, in corners and under leaves.

Take a look under stones or fallen branches.

Are creatures hiding there?

Look carefully with your magnifying glass!

How many legs?

Is it shiny?

What colour?

Does it have a pattern?

Now draw your favourite creature and its home.

Keep the creature safe in its home, so carefully put back the stone or log.
